

## SUMMARY:

# Strategic Plan 2023 – 2026

## Creating a Healthier Falkirk

Falkirk Health and Social Care Partnership has set out its intended direction for the next 3 years in this Strategic Plan. By reviewing current and upcoming challenges, together with local communities, we have agreed a set of priorities which shape how we will improve and develop services and support options. Together, our efforts will ensure that people living in Falkirk are healthier and happier.

## OUR PRIORITIES FOR THE NEXT 3 YEARS ARE:

### Community-based services

Enhance services to improve the 'flow' through hospital settings, prevent admission, and promote independent living.

### Accessible care

Improve the way people access services – enabling everyone to access the right care, at the right time, in the right place.

### Early intervention & prevention

Minimise the harm of long-term health conditions, ill-mental health, substance use, or neglect through early action.

### Carer support

Assist, inform, and empower unpaid carers to manage their caring role and have a fulfilled life outside of caring

## THESE PRIORITIES ARE DRIVEN BY 3 WORKSTREAMS:

### Workforce

Recruitment, retention, and celebration of staff across all services.

### Technology

Explore new ways of helping people and delivering services.

### Communication

Improving engagement, feedback opportunities, and signposting info.

## WE MEASURE PROGRESS BY REVIEWING OUTCOMES

There are 9 National Health and Wellbeing Outcomes that every health and social care partnership uses to measure performance. In addition, we have set 4 local outcomes. Falkirk publishes an annual report and regular performance data to show local people how we are doing.

## THIS STRATEGY WILL HELP US ACHIEVE OUR VISION:

To enable people in Falkirk HSCP area to live full and positive lives within supportive and inclusive communities
